

WHO WE ARE

Founded in 2012, Philia is a growing, independent and Africa dedicated energy business actively working with global partners across the petroleum value chain.

OFFER

Philia has both upstream and downstream activities. We operate an exploration asset offshore in the Gulf of Guinea and are assessing opportunities for producing assets in West Africa. We lift and supply volumes from West and South African producers and refineries – mainly naphtha, gasoline, gasoil, LPG, jet aviation, LOGBS, fuel oil and crude oil – that is then sold to end-users in Europe, the USA, South America and Asia.

AFRICA

Our oil and gas activities span over 15 countries in Africa, including: Benin, Burkina Faso, Cameroon, Congo, Equatorial Guinea, Gabon, Ghana, Nigeria, Ivory Coast, Morocco Senegal, and South Africa.

OUR CLIENTS

We work with a range of IOCs, NOCs, SOEs and other energy related businesses across the petroleum supply chain.

TEAM

We have a diverse core team of highly skilled energy industry professionals, many of whom have experience working both in Africa and for global oil and gas majors in international markets.

OFFICES

- Singapore (headquarters) – Asia
- Geneva – Europe
- Tangier – Africa
- Pointe-Noire – Africa
- Dubai – Middle East

ESG

We have a dedicated ESG team for the business. Our corporate responsibility policy is divided into six main areas, in line with the UN supported PRI model.
